

# WHAT SHE WANTED

AR TEST KIT · printed-page recognition

scan → open in Safari

## HOW TO TEST

1. Print each page (matte / plain paper, not glossy). Keep it flat.
2. On iPhone, open the URL in Safari → “Begin AR” → allow camera.
3. Frame the WHOLE page, ~30–60 cm away, in even light.
4. Each page shows its own scene. Add ?debug=1 for live diagnostics.
5. Tap COPY LOG in debug and paste it back with the grid below.
